

Skate Regina has transitioned from paper to online report cards. This feature allows you to see your skater's progress in real time throughout the seasons. **For the final session of each season, your skater's progress will be published with personalized comments from the coaches.**

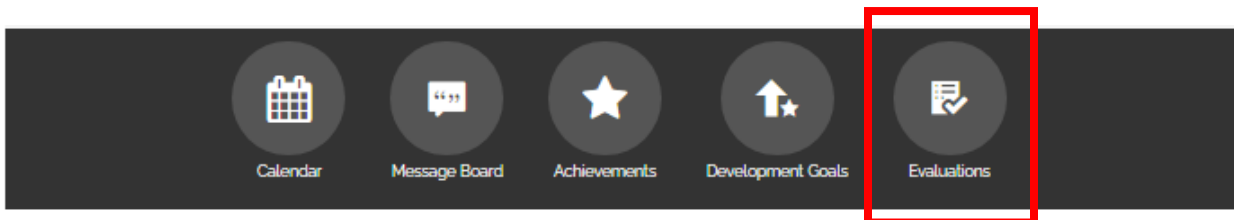

Sessions that will have online progress tracking include: CanSkate, Jr Prep, Pre-Power and Power.

❖ To view **"Evaluations"** (previously known as the checkmarks for achieved skills on the paper report cards):

- Login to your account on [www.skater Regina.ca](http://www.skater Regina.ca)
- Click on your name in the top right corner to see your profile
- Select "Participants" and choose the skater that you wish to view evaluations for. This will bring up their individual profile.

- Select "Evaluations".

- To select an evaluation, use the drop-down box to filter a specific evaluation. It is best to sort by **class name** to view all assessments for each fundamental in that class. (Balance, Control, Agility).

## Participant Evaluations

- You will see a list of skills for each level and fundamentals. Check marks completed in the program will appear next to the skills. You will see comment boxes throughout this page as well. There can be up to 3 different comment boxes, under each fundamental.

❖ To view **"Achievements"** (also known as the completed ribbons or badges):

- Under your skater's profile, select "Achievements". This function will show all awarded achievements (Ribbons/Badges) and the date that they completed that level or fundamental.
